How to check and update harvest and dry-down details in IrrigWeb

Open **Masters**, click on **Paddocks by Season** and check that **Current** is selected for the season. If you have more than one farm, you will need to select the farm before selecting the paddocks.

This will bring up a list of the paddocks for the current season. Check the current dry-down (dry-off) and harvest dates. To check the number of dry-down days, you will need to scroll to the far right hand side of the page.

If they are correct, then there is nothing more to do.

	Paddock Name	Area (ha)	Prev Harve... Plant Date	Dry-off Date	Harvest Date	R... R...	Variety	Row Config.	Auto-... (Y/N)	Me Site
	14-2	12.6	16/04/2019	30/04/2020	25/06/2020	P	Sugarcane	1.5 m single	<input type="checkbox"/>	Ayr
	2018SepP	5.2	01/10/2019	22/07/2020	30/09/2020	R1	Sugarcane	1.5 m single	<input type="checkbox"/>	Ayr
	2018SepR	8	16/10/2019	20/08/2020	15/10/2020	R2	Sugarcane	1.5 m single	<input type="checkbox"/>	Ayr

If something needs to be changed:

Click on the pencil symbol to the left of the paddock name – this will bring up the paddock details and allow you to edit them. Make the required edits (see next page) and press **Submit** to save them.

	Paddock Name
	14-2
