

BPS Study Bursary Application Form 2025

Background:

The board of Burdekin Productivity Services Ltd (BPS) is offering financial support in the form of a study bursary to one suitable candidate to study for an agronomy related Bachelor's degree at an Australian university of their choice. This shall be known as the BPS Study Bursary. The BPS Study Bursary is not a donation to assist with the cost of university, but rather a reward for hard work, so there are conditions that must be met before the funds are distributed.

The following criteria must be met to qualify as a suitable applicant for a BPS Study Bursary:

1. Must be a current Burdekin resident who has resided in the district for the past 2 years at least.
2. Must have completed Year 12 in the last 2 years either at a Burdekin High school or at a boarding college elsewhere.
3. Must have successfully completed, to the required standard, those Year 12 subjects that are required for acceptance into an Australian university course to study an agronomy related Bachelor's degree.
4. Must be willing to undertake full-time study on or off campus at a selected University and must be prepared to complete the selected course in the designated time period or undertaking part-time study while working in an agricultural based role or company on a casual, part or full time basis.
5. Must complete a written application and agree to be involved in an interview process with the Bursary Selection Committee if selected to do so.

The following conditions apply to a BPS Study Bursary:

1. A BPS Study Bursary shall activate only when the successful awardee is accepted into an agronomy related Bachelor's degree course at an Australian university.
2. Maximum payment for a BPS Study Bursary shall be \$15,000 over a 3-year period for full-time study and on a pro-rata basis for part-time. These funds shall be dispersed in tranches of \$2,500 per semester (\$5,000 per annum).
3. In any one semester, the full payment of the \$2,500 for full-time study and on a pro-rata basis for part time tranche shall remain dependent upon successful completion of all required course subjects during that semester.
4. In any one semester, a pro-rata deduction to the \$2,500 tranche shall apply, but only if 75% or greater of required course subjects are completed successfully in that semester (i.e at least 3 out of 4 subjects are completed successfully). If less than 75% of required course subjects are completed successfully in that semester, the \$2,500 tranche shall be withheld and deemed not payable.
5. Tranches of a BPS Study Bursary shall be paid half yearly in arrears once written proof of semester results are presented to BPS management and confirmed by the relevant university.
6. If an awardee of a BPS Study Bursary changes or alters their university course at any time, whereby it no longer qualifies as an agronomy related Bachelor's degree course, the BPS Study Bursary shall be cancelled.

7. If an awardee of a BPS Study Bursary converts their university course to part time study whereby the length of time for completion is extended beyond that of fulltime study, the BPS Study Bursary shall be cancelled.

To be considered for the BPS Study Bursary, a fully completed application form, resume & letter of introduction must be returned to Burdekin Productivity Services Ltd via email to rmilla@bps.net.au by 4pm on Friday 12th December, 2025.
